

YOU HEARD HER SPEAK!

YOU NEED THE KNOWLEDGE SHE HAS!

If you are like most genealogists, you have at least one genealogy problem you cannot solve - let *Arlene H. Eakle, Ph.D. and her Genealogical Institute* help you with that problem! Using over 25 years professional research experience she can crack tough problems. Using special, time-proven, field tested research methods, Arlene Eakle's Genealogical Institute has a 96% success rate--*Why not let them help you?*

To Begin Your Research, Use This No Risk Checklist and SEND:

- A clear statement of the genealogy problem you would like us to solve. Specify the specific ancestors you want traced.
- Pedigree chart showing these ancestors you want us to trace with the information you already know filled in. You can send a computer-generated pedigree with supporting family charts on a disc if you prefer.
- Copies of Bible pages, letters, obituaries, certificates, and other family records for these ancestors. Include any family traditions you have on them.
- List the sources you have already checked: Family Members, Certificates, Cemetery, Probate, Military, Church, Birth, Marriages, Immigration, Indexes. **If you supply this information time will not be wasted and unnecessary research duplication will not occur--giving you the most for your money.**
- Daytime and evening phone numbers where you can be reached with best days and times to reach you in case there are questions. Please include your e-mail.
- The mailing address where you want the report and all correspondence sent. Reports are too large for e-mail delivery.
- Dates for any deadline you have--reunion, special gift, genealogy trip you need the information for. Most projects take 3-6 months to complete. Hard-to-find ancestors may take a full year to permit field research where these ancestors lived.
- Retainer Fees: See chart below.*
